

LUMINARA

ALCOHOL-REMOVED WINE

NAPA VALLEY RED BLEND 2022

Illuminating the idea of what fine wine can be, Luminara is the first-ever exquisitely crafted, alcohol-removed wine made from fruit grown in the prized Napa Valley appellation. By selecting grapes of exceptional quality, in tandem with the most advanced proprietary de-alcoholization technology in the world, Luminara delivers a true fine wine experience – without the alcohol.

WINEMAKING

Our technologically superior and delicate alcohol-removal process allows us to retain the vibrant fruit aromas and flavors that define this Napa Valley Red Blend. Using a revolutionary spinning cone column, we gently extract and safeguard the wine's delicate aromas and flavors. The finished wine is aged in both French and American oak to impart additional complexity and texture.

TASTING NOTES

Our rich alcohol-removed Red Blend reflects the heart and soul of Napa Valley terroir, showcasing bold black cherry aromas over subtle notes of baking spice and smoke. Luxe cherry on the palate culminates in a long, lingering finish, making this Red Blend a luminous offering for any occasion.
